MEGANE TROPHY

The Mégane Renaultsport 225 Trophy truly is a Special Edition and a technical tour de force. Unashamedly sporting, and indisputably rare, since only 500 will be produced worldwide. Its dynamic drive is now even more focused, enhanced by updated, re-tuned suspension all round to reduce roll. In turn, that's backed by a heavily-revised steering set-up. Electrically power assisted and variable, it gets progressively firmer to give a more direct, track-type feel at speed, while ventilated brake discs and Brembo calipers bring everything safely to a stop. The combined effect is one of tauter handling, prodigious roadholding and the added confidence of highly responsive driver feedback.

From outside, the Mégane Renaultsport 225 Trophy's performance promise is blatantly obvious. There's a more aggressive stance that stems from distinctive 18" Renaultsport Anthracite alloys, shod with special low-profile 235/40 tyres, specifically developed for this version for their traction, grip and steering performance. There's just one unique pearlescent body colour – Nimbus – to give a sporting, yet dark edge.

Inside, new part leather seats, chrome drilled pedals, carbon fibre door handle surrounds and dashboard trim all send the same uncompromising message. This is one serious, sensational driving experience. And if you're seriously quick, you may be fortunate enough to join the precious few who'll get to savour it to the full.
