

SKYACTIV TECHNOLOGY

MAZDA ORIGINAL OIL SUPRA 0W-20

Engine Oil - **SKYACTIV** Technology

APPLICATION

- **Specifically designed for SKYACTIV petrol engines**
 - ✓ Lubricant tested and recommended by Mazda Corporation for petrol vehicles equipped with SKYACTIV Technology (Mazda CX-5). Can also be used for many other Mazda petrol engine models including Renesis engines (for details refer to application table).
- **The most severe routes**
 - ✓ For all types of service (urban, highway and motorway driving)
- **Driving style**
 - ✓ Suitable for all driving styles

ADVANTAGES FOR THE CUSTOMER

- **Protection against wear**
 - Thanks to anti-wear performances, this lubricant ensures an excellent engine longevity
- **Fuel savings**
 - Specially designed to provide outstanding performances and reduce fuel consumption

MAZDA ORIGINAL OIL SUPRA 0W-20

October 2012

This lubricant used in accordance with our recommendations and for the application for which it is intended does not represent a special hazard. A safety data file conforming to the requirements of current E.U. legislation is available from your local trade consultant.

SKYACTIV TECHNOLOGY

- **Easier cold start**

- ✓ Low temperature fluidity which ensures good starting under cold condition with an immediate lubrication of the engine. Also, protection of the parts is maintained even in great heat.

SPECIFICATIONS

- **This oil has been tested and approved by Mazda Corporation.** Meets the requirements of SKYACTIV Technology
 - API SN / ILSAC GF-5

CHARACTERISTICS

Density at 15 °C	846 Kg/m ³
Kinematic viscosity at 100 °C	8,30 mm ² /s
Kinematic viscosity at 40 °C	35.9 mm ² /s
Viscosity index	218
Pour point	- 47°C
Flash point (C.O.C.)	220°C

(Typical values given as example)
